

I think that the idea of making the law looser so that we can get more telemarketing, credit card companies, phone companies and anybody else that can be a nuisance calls is ridiculous. This law should NOT be passed. I have totally enjoyed not having so many phone calls coming in. I hardly ever get any anymore. I do not appreciate these nuisance calls no matter what I am doing. Pass a law that says that none of these people or businesses can even make these kind of calls. I hope that this law will NOT be passed.
